Moipati Thoobe

Coding Mentor | Full stack web developer | Cloud & AI enthusiast |
3X AWS certified

Pretoria, Gauteng, South Africa

Summary

Hi, I am Moipati. I am a coding mentor and junior full stack developer with a strong foundation in both frontend and backend development. A graduate of HyperionDev's immersive Full Stack Web Development and Software Engineering bootcamp, I bring hands-on experience across multiple technologies including JavaScript, React, Node.js, Express, PHP, Laravel, SQL, and Python.

Currently, I mentor students at HyperionDev, where I provide technical guidance, review code, and support learners across full stack, software engineering, and cybersecurity bootcamps. This role has strengthened my ability to communicate complex concepts clearly, keep learners motivated, and foster problem-solving mindsets.

I hold a Bachelor of Computer and Information Science from Monash South Africa and am AWS Certified (Cloud Practitioner & Solutions Architect Associate), with a growing interest in how cloud and AI technologies can transform development and business solutions.

Passionate about coding, problem-solving, and continuous learning, I am eager to contribute to innovative projects where I can apply my technical skills and cloud expertise to create impactful solutions.

Experience

HyperionDev

Code Mentor

September 2022 - Present (3 years 3 months)

City of Johannesburg, Gauteng, South Africa

- Provide one-on-one mentorship to students across Full Stack, Software Engineering, and Cyber Security bootcamps.

- Review and assess code submissions, offering constructive feedback to help learners improve technical skills
- Guide students through problem-solving, project development, and debugging to build industry-ready capabilities.
- Contributed to multiple cohorts' success by fostering an engaging, results-driven learning environment.
